Splendid Performance By Local Orchestra at Opera House Sunday

Coleman People Pleasantly Surprised
at Fine Performance by Local Or-
chestra Under John Crawford

The first concert this season of the newly-organized orchestral association held on Sunday evening in the opera house was attended by over 600 people, and many were unable to gain admission. In addition to those from Coleman, there were many from the neighboring towns.

The concert opened with a few remarks by Dr. R. P. Borden, chairman, who stated it was an honor to Coleman to have such a fine orchestra, and it was indeed an asset to have such a capable director as Mr. Crawford, whom he hoped to see soon to leave Coleman, but he hoped that the next director would take the same interest and that the members would give him their full support.

Of the concert itself, it might be mentioned that it was one of the finest musical events ever heard in the Pass, and this is the more remarkable when the fact is taken into consideration that the orchestra has been in existence a little less than four months.

Special comment is made on the following orchestra members: March, "Stoney Point," by Laurendeau; overture, "Mignonette," by Bauman; "Dance of the Crickets," by Serdy; "Gavotte Souvenir," by Heresberg; "Fair Maid of Perth," by Widdel, and the march "The Little Periwinkles," by Bosc.

The playing of these selections showed marked distinction in the shades of tone, also the technique and ability of the orchestra. Special mention may be made of the trumpet playing of Mr. J. Lowe in the overture, "Mignonette," also the playing of Messrs D'Amore and McQueen in the clarinet and flute duo in the selection "Fair Maid of Perth."

Assisting the orchestra were the following artists: Mr. Percy Rhys, who is a newcomer to the Pass and possesses a wonderful tenor voice, who substituted for his brother, Mr. Edgar Rhys, who through injury was unable to appear; the baritone solo by Mr. Alf. Phillips, well-known singer of the Pass and twice winner of the silver medal at the Crow's Nest Festival; "The Bugler" was received amid great applause and he gave an encore "Plain Jane." Mr. Cecil, who has made quite a name for himself throughout the Pass towns, made a wonderful impression with his rich tenor voice and was repeatedly encored. The vocal duet, "Watchman," sung by Messrs Phillips and Cecil Rhys, showed the splendid blending of the two voices. This number brought great applause and was repeatedly encored.

Mr. W. Mason, L.C.M., orchestra accompanist, played a fine piano selection and was repeatedly encored. During the rehearsal in the afternoon a surprise was given Mr. Crawford when Mr. A. McQueen, chairman

Canadian Pacific Directors & Eastern Financiers Inspect the West

From left to right, front row—F. W. Molson, director; Sir Charles Gordon, president Bank of Montreal; Sir Herbert Holt, director C.P.R. and president Royal Bank; E. W. Beatty, chairman and president of the Canadian Pacific; and J. W. T. Tilley, K.C., director; W. A. Black, president Ogilvie Milling Co. and director; Standing: Mr. Beaudry Leman, general manager; Banque Canadienne Nationale; D. C. Coleman, vice president Canadian Pacific western lines; Dr. W. W. Chipman, Montreal; James A. Richardson, director, Vancouver; Hon. Smeaton White, president Gazette, Montreal. This group was photographed at Banff Springs hotel.

One of the most outstanding groups of eastern business men that ever visited western Canada together accompanied Mr. E. W. Beatty, chairman and president of the Canadian Pacific on his recent annual tour over the company's western lines. The party which was representative of the financial and industrial activities of all Canada left Montreal at the end of August and spent a full month travelling about the country between Montreal and the Pacific coast.

The purpose of the tour was to become more particularly acquainted with conditions and problems—and all my experience I have not previously found so general a feeling of complete confidence in this country and its possibilities as was observed in the cities and districts where we made stops and had an opportunity of talking things over with their representative citizens. More than ever am I impressed with the potentialities of Canada's north land. I think it almost too much to say that Canada's future lies to the north and that the opportunities already disclosed there are a challenge to the oncoming youth of the older parts of the country.

"We had an excellent opportunity of learning this," said Mr. Beatty, "during our visit to the Peace River country which most of us had not previously seen. As a result of that visit we have arranged to take over and operate the E.D. & B.C. Railway, which arrange-

ment, I believe, will prove very greatly to the advantage of that country and the people who live there.

"It is a beautiful as well as a fertile country," continued Mr. Beatty, "it can perhaps hold it best of all to some parts of old Ontario. It is a rolling country, in some places quite heavily wooded and much broken by lakes and rivers. The soil is generally a rich, black loam and highly productive, and although there is a steady movement of settlers into the area which will, no doubt, increase in volume as it becomes better known, its extent is so great that it must be years before the available land is all taken up. Our party took every advantage of the opportunity offered to see the country. We motored over three hundred and fifty miles of its excellent roads, and almost everywhere we found fine farms or newly broken homesteads and in some cases well settled communities having every appearance of prosperity. In town and country alike we met with a cordial welcome and I think our visit was taken as a friendly gesture of interest on the part of the East towards the new, far Northwest. We motored over the British Columbia border line as far as Ralla and as far north as Peace River Landing, and after we feel we had but touch the edge of Canada's great north.

It is hardly possible to say what the next few years will bring to that country, but we must recognize the fact that there is a new Canada being opened up well beyond what we have previously considered to be the northerly limit of habitation and production. We hope that we shall very shortly be able to go to work on the task of putting the E.D. & B.C. Railway into better shape to serve the communities it reaches. Much money has been spent in order to bring it up to standard and it will also take some time.

Oddfellows and Rebekahs Preparing for Winter Program

Oddfellows and Rebekahs Plan for Joint Socials on Saturday Evenings.

From now till the 15th of December the above lodges will hold dances in the Oddfellows hall on Saturday evenings. For the period from Oct. 20 till Dec. 15, first and second prizes will be given at the whist drives, and grand aggregate prizes will be donated by the lodges on Dec. 15.

The lodge room will be specially decorated for these socials, and members and their friends are promised some enjoyable evenings, states Mr. Harry Boulton, who is one of the active committee in charge of arrangements.

Don't Try to Beat The Post-Office Department

Using Cancelled Postage Stamps May Cost Heavy Fine for Offenders.

The local postmaster has received from the district inspector the result of the trial of a man who used cancelled stamps for mailing letters. He was given lenient treatment, being fined \$30.00 and costs, and was seriously warned. The prison penalty in case of non-payment of fine was thirty days.

This will impress on people the seriousness of using stamps that have already been used on mail matter. Parents should be careful to see that children do not use stamps from letters that may be received in the home, for it may land them into difficulties and cause them to appear in court if a charge is laid by the post office department.

There have been some cases locally, states Mr. Graham, which have been dealt with as the circumstances warranted, but it should be remembered that if the limit of the penalty is imposed, it will prove very expensive to those found guilty.

W. G. Harris of Coleman was present at the opening ceremonies of the new public school for Michel and Nial, which took place last week.

GIRLS HAD SWEET DANCE.

The Shamrocks held the second of their series of dances on Monday evening and Mrs. Altmann's orchestra gave the needed "pep" and vim to make it go over with a merry swing. As there are many who have been unable to attend the dances, but who desire to show their support of the club, the girls are circulating tickets for admission at one dollar each. This being the only source of revenue for the season and to take the team to the Bank Winter Carnival, the girls decided to sell tickets. Even if you do not dance, you can help them in purchasing a ticket, so he prepared to succumb to their sweet smiles when they demurely request you to buy a ticket.

SALE PROCEEDING

Laslett & Kerr's sale attracted such a crowd of bargain seekers last Saturday that the store had to be closed at intervals to relieve the congestion, and it was a tired bunch of salespeople who welcomed the closing hour on Saturday night.

This week a further list of bargains is advertised, and the public is reminded that the sale continues till Sat. Oct. 27. If you are wise, you will get your bargains as early as possible, states Mr. Laslett, for they are moving fast.

Personal and Local

The Journal is always pleased to receive local news items, which may be sent by mail or by telephoning No. 209.

It is reported that Mine Manager John Crawford will leave for Merco to take over the management of the Saunders Ridge collieries, in succession to Manager A. D. Millar, recently appointed chief mines inspector of Alberta.

The streets are now being given a top coating of fine gravel in addition to the coarse gravel and rocks which hinders travel much smoother, and also makes it a great deal easier for pedestrians to cross the streets. They are not bothered so much with stones punching through the soles of their shoes. The improvement generally is appreciated by the public.

GREETING CARDS FOR OLD COUNTRY DELIVERY

In order to ensure delivery being made in good time of Christmas Cards to relatives in England and European countries, they should be sent from Coleman at least three weeks prior to Christmas. The Journal office has a very fine line of Personal Greeting Cards, on which can be printed your name and address. The prices range from \$2.00 per dozen up, including printing and envelopes, ready for mailing. A sample book with over a hundred varieties to choose from will be sent on request. Telephone 209.

Fine Shows Now Boiled For The Palace Theatre

Popular Playhouse Offers a Good Program for Next Week—"Fazil" for Week-end

A romance in Argyle with a shiek is the description of the feature picture for Friday and Saturday with that prince of lovers, Charles Farrel, giving the alluring beauty of Greta Nissen. They have a strong supporting cast in well-known stars.

On Monday Colleen Moore in "Oh Kay" will be the feature; on Tuesday "Square Crooks," and on Wednesday, Thursday, Zane Grey's famous "Vanishing Pioneer."

For the following week-end, Oct. 26-27, "Beggars of Life" will be shown, starting the well-known Wallace Beery.

The picture filmed last Friday and Saturday at the Palace, entitled "Wild Geese," was enjoyed and gave a very true representation of the grasp of farmer, Calhoun Gair, who lost a sense of the finer things of life in his avarice to acquire the land of his neighbors. The novel from which this picture was made was written by Martha Ostenso, and deals entirely with life on a farm in Northern Manitoba. It was adjudged the best novel in a competition for which a prize of \$10,000 was offered by the Curtis Publishing Co., and was the first story that Miss Ostenso had written. It became so popular that it was published in serial form by many publishers, besides which its circulation in book form ran into hundreds of thousands. The character of the teacher who boarded at the farm was splendidly taken by Anita Stewart while that of Judith, the eldest daughter whose spirit of independence rebelled against the tyrannous nature of her father, was taken by Betty Bennett. Many complimentary remarks were heard on the picture version at the Palace.

PORTABLE TYPEWRITERS

Remington Portables are used in many homes where the children may become quite expert as well as the adults. Why not consider one as a Christmas present? They are sold for cash or on terms to suit the purchaser, and full particulars may be obtained at The Journal office.

\$40,000 Anglican Appeal Has Reached Its Objective

Anglicans Give Ready Response in Coleman to Anniversary Appeal by Bishop Sherman

At the evening service at St. Alban's church on Sunday, conducted by the Rev. E. S. Lowe in the absence of the rector at Pincher Creek, the following was read by Mr. Lord:

"The following summary of the campaign in Coleman, will be of interest to the canvassers and the congregation. Up till Saturday evening the total in cash and pledges was \$337.00, while for Blaimore it is expected their total will reach \$100.

"There are still two canvassers who have not turned in reports, so that Coleman should reach the \$350 mark, with a possibility of going higher.

"To Messrs. Barnes and Graham goes the credit for the high mark in the canvass, their total in cash and pledges being \$112.00, while Mr. Currie credit is due for second place, he working single-handed and securing cash and pledges totalling \$95.50.

"The thanks of the vestry is also accorded to Messrs. L. Burrows, Alan J. Brown, J. Barrington and F. Thom for their efforts which greatly helped in reaching the total, and it is expected that when Mr. Thom and Mr. Morris have completed their canvass they will show a nice addition to the total as at present.

"In a telephone message last evening to the Rector, the Bishop stated that the total was now \$35,000, and he was very pleased with the results in Coleman.

"An important feature of the campaign is this—it has aroused renewed interest in the church throughout the diocese, and this fact was apparent in that the canvassers were given a 'cheerful reception' by those whom they approached for subscriptions, which lightened the arduous work of men who freely gave their time and money making a success of the appeal.

"There is also the added satisfaction of having taken a part in lighting the labors of Bishop Sherman, in helping to place the church in a condition whereby it will be enabled to carry on its mission much more satisfactorily in the Diocese of Calgary, and also in strengthening the hands of the clergy in their ministrations to their congregations.

"For the happy co-operation of the committee, and the support of the congregation as a whole, I tender my sincere thanks and expression of appreciation.

"H. T. HALLIWELL,

Chairman of Local Committee.

"At the conclusion of the campaign a statement will be issued to all who contributed.

"Since the above summary was made up there have been some additional contributions made, and on complete returns being handed in, a statement of the amounts collected and pledged will be sent to all who subscribed."

The latest news from Calgary states that the objective had been reached, and it is anticipated that the final summing up will show \$45,000 contributed towards the appeal.

A TREAT FOR ALL.

A Double Escape

DOCTOR'S DAUGHTER'S STORY

Another Toronto home provides evidence of how a simple cut, scratch or bruise, may pave the way to deadly blood-poison, and how vital it is for keeping Zam-Buk, always handy.

When called upon at 3, Buxton Avenue, Mrs. J. E. Zask, daughter of the late Dr. Revan, of St. David's, St. Wales, said: "My boy Alfred scratched his leg with the brass tag of a shoe lace. A nasty poisoned sore developed. Hearing splendid reports about Zam-Buk I decided to give it a trial. To my great relief, the pain subsided, the swelling set in. All inflammation and poisonous matter was quickly removed by Zam-Buk, and it healed the sore without leaving a scar."

"Again when I fell over a steel fence and injured my knee badly, Zam-Buk alone saved me. My daughter, a nurse, was of the opinion that only an operation could remove the mass of inflammation and pus. But I again pinned my faith to Zam-Buk. It cleaned my skin and healed the wound." All druggists and stores sell Zam-Buk at fifty cents per box. Equally valuable for eczema, pimples, cuts, burns, etc.

WORLD HAPPENINGS BRIEFLY TOLD

The demand for registered seed next year will be even greater than in previous seasons in the Dominion of the Saskatchewan Registered Seed Growers' Association in Moose Jaw.

Dr. S. Parkes Cadman, chairman of the China famine relief organization in New York City, received information of the report that only an estimated 200,000 persons by famine victims in Kansu Province, China.

For the twelfth month ending August 31, the Dominion Bureau of Statistics reports that alcoholic beverages valued at \$20,316,175 were exported from Canada to the United States.

More than 1,000 Saskatchewan old timers were in receipt of old age pensions under the plan approved at the last session of the provincial legislature at the end of September and there are about 2,000 more applications under investigation.

Capt. T. P. Worshop, 64, formerly Port warden of Vancouver and one of the first to operate a vessel on the upper Yukon river during Klondike gold rush, died at his home in Kamloops, B.C., after an illness of several months.

Stocks of surplus military explosives, including more than 126,000 pounds of TNT, accumulated by the government during the World War, have been put to industrial uses, the United States Bureau of Mines reports.

Men would do well to copy the fax in the matter of scant garments, Dr. Gerald S. Webb, of Colorado Springs, told physicians at the meeting of the New York Academy of Medicine. Short skirts and tight clothing worn by women prevent pneumonia, he said.

Up to October 8, this year, 100,459 Saskatchewan people have secured licenses for privately owned automobiles. The total number of cars licensed, not including the licenses issued to dealers, is 116,036. During the corresponding period of the previous year, the total was only 102,865.

Dr. Wilhelm Greener, minister of defence, has issued a decree ordering all officers of the reichswahr to leave any function at which the former kaiser or any of the former ruling princes are seated. The reichswahr members are ordered to leave if any function should develop into a demonstration against the German republic.

Cloth woven by Mayans 2,000 years ago in America has been found, according to Prof. Franz Blom, of Tulane University, New Orleans.

HE DIDN'T THINK DYSENTERY COULD BE RELIEVED

Mr. John Mellinger, Fenner, Alta., writes: "I am a retired soldier, and when I came home from the war I suffered greatly with dysentery. The doctor said it was chronic and did not think it could be relieved. However, he doctored me for quite a while, but did me no good. One day the druggist asked me if I had ever tried

Dr. FOWLER'S
EXTRACT OF
STRAWBERRY

"On his recommendation I bought a bottle and after I had taken it got some relief, so I kept on taking it and have never had the dysentery since."

Value Of Tourist Traffic

No Official Figures On Amount Of Money Spent Have Been Given Out

How much money do people from the United States have in Canada every year? No official figures have been given out, but guesses run all the way from \$100,000,000 to \$400,000,000. The Royal Bank of Canada estimates that \$275,000,000 was left by United States visitors to Canada in 1927, compared with \$140,000,000 in 1925.

This year's traffic has been unusually heavy. In Quebec, which 3,400 cars from the United States entered in 1925, 425,000 cars were expected to enter this year. Ontario shows a much larger figure, but the length of stay is less.

It is estimated that 3,000,000 cars from the United States will have entered Canada before the close of the present year. Canada, seeing what is ahead, is busy spending millions of dollars for good roads.

ARE YOU AFRAID OF YOUR MEALS?

Proof That the Stomach Is Weak, and Needs Toning Up

Are you one of the many sufferers who dread meal time? Hungry, and yet afraid to eat, because of the pains and discomforts that follow. When the stomach is out of order the whole system suffers and the body becomes thin and watery. It becomes difficult to correct the digestive disorder. There is no tonic for the stomach that is not a tonic building tonic such as Dr. Williams' Pink Pills, not only relieves indigestion, but adds to the system's strength. Mr. D. J. Shaw, Selkirk, P.E.I., has proved the value of Dr. Williams' Pink Pills in a severe case of indigestion and relates his experience for the benefit of other sufferers. He says: "I suffered from indigestion for a number of years. My case was so bad that words fail to describe it. My appetite was gone, constipation was present, and my nerves were all night. I could not sleep at all, and the world was a dark spot for me. I tried a number of remedies, without any benefit. Then Dr. Williams' Pink Pills were recommended, but without much faith, after so many failures, I decided to try them. After taking three boxes I noticed a change for the better. Then I got three more boxes and found I noticed a genuine remedy. I continued the treatment, took moderate exercise, could take plain food without suffering as formerly, and proved that these pills make good blood, and that the good blood will restore the stomach and nerves. Anyone suffering from stomach or nerve troubles will make no mistake in giving Dr. Williams' Pink Pills a fair trial."

Dr. Williams' Pink Pills are sold by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont. Write today for a copy of the free booklet "What to Eat and How to Eat."

Small boy: "Say, mister, give me a pound of oysters."

Dealer: "We sell oysters by the measure, my boy, not by the pound."

Small boy: "Well, then, give me a yard."

ALBERTA WHEAT POOL NEW TERMINAL ELEVATOR

The Alberta Wheat Pool terminal is anticipated in future years the great bulk of Alberta's crop will seek the world's markets by way of Pacific tidewater is evident from that organization's activities in building and acquiring terminal elevator space at Vancouver and Prince Rupert. Just recently a great new terminal has been completed for the Alberta Pool, at Vancouver, by the North-West Construction Company and J. W. Stewart, and with C. D. Hues & Company, recognized as one of the foremost designers of terminal elevators, as the engineers. The capacity of this new terminal is approximately 2 1/2 million bushels, which brings the total storage controlled by the Alberta Pool on the Pacific coast up to 5,300,000 bushels.

"The wonder meal of the age" is a fitting term for Aluminum. It is light, bright, brightness, flexibility, freedom from rust, and many other good qualities, make it adaptable to a multitude of uses, a chief one being as a container par excellence for good tea—Red Rose Tea is packed only in this modern metal package.

SUNDAY SCHOOL LESSON

OCTOBER 27

CHRISTIAN STEWARDSHIP

Golden Text: "First they gave their own selves to the Lord."—2 Corinthians 8:5.

Lesson: 2 Corinthians 8:1-9, 13.

Devotional Reading: Psalm 95:1-7a.

Explanations and Comments

The Example Of Christian Generosity Given By The Churches In Macedonia, 8:1-5—Paul calls to the mind of his readers, the Christians of Corinth, the example in generosity of the Macedonians (the churches of "Thessalonica and Berea"), and ascribes the latter's large collection for the poor at Jerusalem to God, whose grace, or love, moved them to generosity. Affliction which had put their Christian character to the proof (1 Thess. 2:14), their overflowing joy (1 Thess. 1:6), and their deep poverty, had resulted in spiritual riches, great liberality. For they gave willingly as they were able, and indeed more than they were able, as Paul, could testify. Perhaps Paul at first thought the Macedonians too poor themselves to do in this collection, for he now says that they begged the privilege of joining in this grace and fellowship. "The contribution of the Macedonian Christians was really comparable to the giving of the widow's mite."

"Strange to say, it is not those to whom the gospel comes easily, and whom it imposes little, who are most generous in its cause. On the contrary, it is those who have suffered for it, those who have lost by it, who are as a rule most open-handed. Comfort makes men selfish, even though they are Christian; but if they are Christian, affliction, even to the spoiling of their goods, teaches them generosity."—James Denney.

The collection was to minister to the "saints" (Paul's term for Christ's followers) at Jerusalem. There were several reasons for their poverty. "The religious prejudices of the Jews, for it is those who have lost by it, who are as a rule most open-handed. Comfort makes men selfish, even though they are Christian; but if they are Christian, affliction, even to the spoiling of their goods, teaches them generosity."—James Denney.

Paul explained to the Corinthians the method of the Macedonians: they first gave themselves to the Lord. And it was their devotion to Paul as well as to the Lord which led him to further his wish in the matter of the collection. "We expected little from people who were so poor," he will tell them later, but by God's grace they literally put themselves at the service of the Lord, in his administration. They said to us, to our amazement and joy, 'We are Christ's' and you tell them, to command in this matter."

When he returns in January he will have officially visited 27 countries—Canada, Australia, India, South Africa, New Zealand, Malta, Gold Coast, British East Africa, Kenya, Tanganyika, Rhodesia, Nigeria, Bantoland, Sierra Leone, Malaya, West Indies, United States, Argentina, Chile, Egypt, Spain, France, Belgium, Uruguay, Central America, China, and Japan.

For COLDS of All the Family

This Modern External Treatment is best

Mothers prefer the external treatment, Vicks VapoRub, for children's colds, because it avoids the constant "dosing" so disturbing to delicate little stomachs. You just rub it on the throat and chest at bedtime.

Other members of the family prefer Vicks for their own colds, because it is convenient, and quick in bringing relief.

For free sample, write Vicks Chemical Co., No. 1 Lee St., Greenboro, N.C., or Carolina, U.S.A.

LAMB SOUFFLE

- 1 cup soft bread crumbs.
- 2 cups thick white sauce.
- 2 eggs.
- 1 teaspoon chopped parsley.
- 2 cups chopped lamb.
- 1/4 teaspoon salt.
- 1/4 teaspoon pepper.
- 1 teaspoon onion.

Make and cook white sauce, then mix it with crumbs, seasoning, and chopped meat. Add the beaten yolks of eggs, then fold in the stiffly beaten whites. Put into a well-buttered baking dish and set in a hot oven containing one inch of boiling water. Bake twenty to twenty-five minutes in a moderate oven. Serve at once.

LEMON JUICE IN PRUNE WHIP

- 1 packet lemon junket.
- 1 1/2 cups stewed prunes.
- 1 pint milk.
- White 1 egg.
- Sugar.

Put the stewed prunes through a coarse sieve into a "large" bowl; sweeten to taste. Add the white of egg and beat with wire whisk 10 minutes. Fill tall dessert glasses half full. Dissolve the junket powder in the slightly warmed milk and pour carefully into glasses, holding a spoon apart over the whip to catch the milk as it is poured in. This careful pouring will keep the whip from floating. Let set in warm room until firm. Grate a little nutmeg over top. Chill.

Demand For Registered Seed

The demand for registered seed next year will be even greater than in previous seasons in the opinion of the officials of the Saskatchewan Registered Seed Growers' Association in Moose Jaw.

Knew He Was Safe

"I think he should take a walk down the town and see the shops, house," said an Aberdonian to his wife. "But they're a shut," she replied. "D'ye think I didna ken that?" he said. "I'm no daft a' t'gether."

"You're doing well, young fellow," said the shipping clerk encouragingly, "the foreman praises you to the skies."

"I'd sooner he'd praise me to the boss," was the quiet reply.

We understand that there is a Scotman in Greenland who keeps his thermometer in the house so he won't freeze.

Scotchmen are said to be untidy, but they like their whisky neat.

Artificial Clouds a Success

German Invention Makes Country Entirely Invisible From Air

Experiments in making cloud screens capable of hiding an entire country side from airplanes have been concluded near Stuttgart, and the results were pronounced highly satisfactory.

Flame throwers of the same type employed during the war were used for distributing gas which, upon striking the air, becomes heavy and opaque. The purpose of the test was to determine if an entire industrial section could be made invisible to hostile airplanes. "The flame throwers were mounted on the ground on all sides of the area around which it is desired to lay a screen. Thus the section could be hidden regardless of the direction of the wind.

Planes flew over the region after the cloud was laid and observers declared they were unable to detect a single building through the gas cloud. Photographers returned with plates which proved worthless as far as identification was concerned. The composition of the cloud-forming gas was kept secret.

Might Be Good Advice

Rockefeller's Idea Of How To Get On In World

From New York comes a new story concerning John D. Rockefeller, the multi-millionaire.

"A young man asked his advice as to how best to get on in the world. 'Work hard and set yourself to buy a gold watch,' was the reply. 'Yes,' queried the listener, 'and when you've bought the gold watch?'

"You don't buy a gold watch," replied Mr. Rockefeller, "you buy a gun-metal one and start all over again for a motor car."

"And when you've got the money for a motor car?"

"Well, you remember the watch, if you're not a fool, and go on walking to business."

Support the Hockey Club

The efforts being made to re-establish the hockey club in Coleman deserve the active support of the community at large. Frequently well-meaning people lament the fact that there is so little for the boys and young men to do around town. Here is an opportunity to let it into something worth while to the young people and the town. In sport as in other lines of human endeavor, leadership is required, and from the material available here surely a capable leader can be selected, while there are sufficient public-spirited men who would give time towards supervision of the team.

There is an opportunity for fraternal and other community organizations to co-operate in fostering healthy sport among the younger people. It would provide them a useful outlet for their energies, and after all an organization's first consideration is something of a local nature. The members would feel that they were really taking a share in community work for the younger people, for after all as we grow older, unless we are of the selfish type who think and act only for self, we realize that the greatest pleasure we can derive is in helping to make life happier for the younger people.

Create an incentive among the boys for good clean sport and they will not be slow in responding.

Whether Coleman is to have a hockey team or not this winter depends on the business men and the public. Let's shake ourselves up and show the Pass that we have "guts" enough to get behind the boys and girls who play hockey. Don't leave it all to the players.

Service Organizations

The name implies helping others as well as ourselves, and in the last number of years service organizations have increased rapidly. Men who have perhaps been members of fraternal organizations to which admission is gained by elaborate initiatory ceremonies, but who feel that there is a more useful channel in which their energies may be directed, turn to one or other service organizations in the cities or towns where they are established. No formality embarrasses the prospective members on joining, and as long as he had proved a man of repute among his fellow business men, and is imbued with public-spiritedness and enthusiasm to serve, he may qualify for membership. Another feature that appeals to the busy man is that there is no waste of time in non-essentials. Business is usually transacted at a weekly luncheon and the time specified is one hour or in some cases an hour and a half.

Business men realize that if their communities are to progress and provide a fuller life for the younger people, they must provide the leadership, and this is where service clubs are functioning in an effective manner. Of course there are many other avenues in which energies may be directed, and to find out if service clubs are really worth while, the answer is seen in those cities and towns where they have been organized for some time.

Newspaper Finances

There are many citizens who expect to pay their grocer or their butcher every month, but they think that a newspaper subscription bill can be paid any old time. Some of them will let it run for years, if the publisher does not cut it off. And if it is cut off they get huffy, and declare they will never take the paper again. They feel indignant because doubt has been thrown on their credit. They should read that the publisher gets no good out of their credit. What he needs, to pay his help and settle his paper bills, etc., is cash, and nothing will take the place of the same.

This irregularity of income is the curse of many newspapers that would be in a thriving condition if they could depend on the same payments that the dry goods man and the shoe store can look to.

It takes a lot of time and effort to collect all these little bills. It usually costs more than the bill is worth, to collect an overdue subscription account. If those accounts could be promptly paid, the newspaper people could use the more regular income in creating new features for their paper, adding to its usefulness and interest, and making it constantly a greater credit to the city of which it is an exponent.

The individual citizen often says that he would like to do something for his home town, but he has no particular gift for any form of public work, so does not know when and where to begin. Here is one way in which he can begin right now. Let him see if his subscription is overdue. If it is, let him walk up to the office and settle, and take pride in doing so, realizing that when he performs that simple little act of justice and good business, he is helping an agency that works every day for his home town, to avoid needless burdens and expense.—Cranbrook Courier

Why Are 'Duds'?

Every high school has its quota of so-called "duds" pupils who do not measure up to the standard set for high school accomplishment. In most cases one or two causes seems to be active; either the student is not interested in the sort of work that the high school offers him, or he lacks the necessary mental equipment. It is not often that a pupil is found who is constitutionally lazy; many children who appear to be lazy could be induced to work if the right stimulus were found or if they were given work that they had the ability to do.

It is folly for the teacher to tell an uninterested or incapable child that he is a "worthless good-for-nothing"; usually it is not true. On the other hand it is uncommensurate administration for school boards to allow the schools to be cluttered up with uninterested and incapable children. And parents who insist on such children "getting an education" very often have a mistaken idea of the meaning of the word education.

The trouble at the present time seems to lie, not so much in the lack of facilities for training children, who will not or can not do justice to academic instruction, as in the lack of facilities for advising pupils as the type of training suitable to their needs and capabilities.

With a view to giving trials in Alberta to the ways in which children are given vocational advice in the principal Canadian centres of education, and as a preliminary to a more vigorous campaign for Vocational Guidance in schools, the Research Committee of the Alberta Teachers' Alliance has undertaken to devote considerable attention to securing information. D. L. Shortliffe, M. A., of Edmonton is the chairman of the sub-committee of Vocational Guidance.

RED TEA "is good tea"

The Orange Pekoe is something extra—a special tea
In clean, bright Aluminum

The Farmer and the Research Worker

The prairie provinces of Canada have completed the harvesting and threshing of the greatest grain crops in the history of Canada, judged from the standpoint of volume. It is conservatively estimated that the wheat crop alone will not be less than 500,000,000 bushels, and that the other four principal grains, oats, rye, barley and flax, will add close to another 500,000,000 bushels to the total bringing Canada's grain yield for the first time within measurable distance of a billion bushel crop.

In almost every respect the season of 1928 was ideal from the standpoint of seeding, growing, cutting and threshing and the acreage seeded showed a substantial increase over former years. There was an absence of rust and other parasites, ample moisture, taking the country as a whole, and generally an absence of those conditions which result in a lowering of yield. The only fly in the ointment was the killing frosts of the third week in August which caught the later sown crops and those which from one cause or another had not matured. The result was disastrous from the standpoint of grades, and consequently materially lowering in prices of a large part of the total production.

According to a rough estimate of the Saskatchewan crop it is stated that about one-third of the wheat will be of the contract grades of 1, 2 and 3 northern, that another one-third will grade number 4, and that the remaining one-third will grade below that figure.

It is within the power of our farmers to partly offset the losses occasioned by dry seasons through the adoption of the most scientific methods of farming; they can increase yields and grades by using good, clean seed and by waging continuous warfare on noxious weeds; they can insure their crops against hail. But they stand helpless before the icy clutch of Jack Frost.

Addressing the annual convention of the Saskatchewan Division of the Canadian Weekly Newspapers Association, at Regina, recently, H. W. J. Motherwell said he knew of only one way to beat out Jack Frost, and that was to get ahead of him. He had reference to the development of wheat with earlier ripening qualities. In this connection he made mention of the valuable time gained through the development of Marquis over the old Red Fire, and brought the meeting to a result of the experiments at this year with Garnet and Reward, there was every expectation that a further notable advance would be made. According to Mr. Motherwell where Reward wheat was grown by farmers in all the prairie provinces, under arrangements with the Department of Agriculture, in over 90 per cent. of cases Reward was safely in stock before the August frosts. He expressed himself as quite hopeful that western farmers would yet be in a position where they could and would beat out Jack Frost.

Experiments have been conducted for some time past to determine to what extent the drying processes for damp wheat affects milling and baking qualities, and recent announcement is to the effect that, on the whole, the quality of the wheat is not seriously affected.

Now the Universities of the three prairie provinces and the Dominion Research officials are engaged in determining the effect which frost has on milling and baking qualities. Hundreds of farmers this year have had the experience of marketing wheat, weighing the full sixty pounds or more to the bushel but which, because of frost effect on the chaff, has been graded away below what would otherwise have been obtained. Rightly or wrongly there is an impression that this frost, while marring the appearance of the kernel, does not seriously affect the quality, and that the producer is sustaining a loss all out of proportion to the amount of damage done the grain; that, in a word, while the farmer-producer loses, the miller gains because he secures good milling wheat at a much less cost. The scientists are now striving to get at the real truth of the matter.

Thus are research workers for Governments and Universities working hand in hand with the farmers in endeavoring to advance the interests and prosperity of agriculture, through the development of earlier ripening grains, the elimination of rust, and in determining the actual effects of moisture and frost on the true commercial value of grain. The effort is to save hundreds of millions of dollars to the agriculturists of the Canada.

Canada is spending more money than ever before in scientific research work, and the Dominion Government announces that such expenditures will be still further increased. No body of men in the Dominion stands to gain more from such work and expenditures than do the farmers of the West. The whole weight of their influence should be back of this enlightened policy.

Made Commander in Royal Naval Reserve

Canadian Awarded V.C. In Great War Receives Promotion

The promotion of Lieut. Commander Donald Neil Stuart, V.C., D.S.O., a Canadian, now in the Royal Naval Reserve, to the rank of commander, recalls the thrilling exploit for his participation in which Commander Stuart received the highest decoration for bravery in the gift of his sovereign. Stuart was one of two Canadians awarded the Victoria

Cross while serving in the Royal Navy during the great war, the other being Lieut. R. Bourke, of Nelson, B.C.

The action for which Commander Stuart was honored was published in the London Gazette, dated Nov. 20, 1918, seventeen months after the event, and it was under provision 13 of the Royal Warrant which enables a ship's company to select members of their personnel for the distinction that the Canadian was awarded the decoration by ballot. Commander Stuart was a colleague of no less a redoubtable fighter in the war story of British high ships than Captain Gordon Campbell, V.C., the mysterious name of the "special service."

The bush ships were a product of anti-submarine campaign. They comprised colliers, freighters, merchantmen, yachts and even fishing smacks carrying concealed armaments and specially selected crews.

Singing Master—Your wife's voice is greatly improved. Husband—Yes, but not cured yet.

The heart of the average adult is 5 inches long, 3½ inches broad and 2½ inches thick.

Minard's Liniment for sprains.

"Is Betty a good cook?"
"No, but she can change a tire!"

Public Flying Clubs
Toronto and Montreal Lead Dominion
In Number Of Flying Hours
The public flying clubs of Toronto and Montreal are leading their sister clubs throughout the country in the matter of flying hours registered by their aeroplanes, according to the latest statistics available at the civil aviation branch of the department of national defence.

The Toronto planes have registered 887 flying hours, Montreal 660 hours, and Ottawa, next in line, 480 hours.

Other clubs and their records follow:

Regina, 303 hours; Edmonton, 266 hours; Victoria, 77 hours; and Calgary, 57 hours.

Touches that Add Style to Dresses

It's amazing to see how easily out-of-style dresses are transformed by a few buttons, a little braid and the quick magic of home tinting or dyeing.

Your tinting or dyeing will always delight you, if you are sure to use Diamond Dyes. Tinting with them is easy as bluing, and dyeing takes just a little more time. New colors appear like magic right over the old colors. They give all the shades, with never a hint of that faded look which comes from inferior dyes. Instant or Diamond Dyes save disappointment.

"Color Craft," my big new book of dollar-saving hints, will be sent you FREE. Write Mae Martin, Diamond Dyes, Windsor, Ontario.

Albany Is Honored
The distinguished service medal of the American Legion, highest honor that members of the former service men's organization can confer, was presented to Field-Marshal Viscount Albany, of Great Britain, by National Commander Edward E. Spafford, at the Legion Convention at San Antonio, Texas.

WHEN YOUR BABY CATCHES A COLD

In spite of all precautions little ones will take colds—especially during the changeable days of our Fall season. When the first symptoms appear—sneezing, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent more serious complications.

Mothers who keep a box of Baby's Own Tablets in the home always feel safe. In fact they are like having a doctor in the house. They are a gentle but thorough laxative that sweetens the stomach and regulate the bowels, thus driving out constipation and indigestion and relieving the baby of the many childhood ailments which are the direct result of a clogged condition of the bowels or sour stomach. They are absolutely safe—being guaranteed to contain no drug at all harmful to even the youngest babe. They cannot possibly harm—they always do good.

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Not a New Business
Evidence of rum-running years ago has been uncovered at the customs house in Mobile, Alabama. Customs agents, searching through old federal records, found a tiny scrap of paper—evidently the last paragraph of a letter—informing federal officers of the discovery of 143 quarts, presumably liquor, submerged in a marsh.

WHITE STAR LINE CANADIAN SERVICE

SAM R. MOORE
President of Saskatchewan Division of the Canadian Weekly Newspaper Association.

Canadian Weekly Newspaper Association

Saskatchewan Division Elects Officers
At Convention Held in Regina
Sam R. Moore, publisher of the Swift Current Sun, was the unanimous choice of the Saskatchewan division, Canadian Weekly Newspaper Association, as president for 1928-29. The election of officers was held at the closing session of the two-day convention of the organization held at the Hotel Saskatchewan, Regina. Officers elected are: Hon. S. J. Latta, honorary president; C. R. McIntosh, M.P., North Battleford, honorary vice-president; T. H. B. McCutcheon, the Star Review, Weyburn, immediate past president; Sam R. Moore, president; H. G. Sheldrake, North Battleford, Optimist vice-president; S. J. Dorman, the Dispatch, Alameda, secretary-treasurer, and the following members of the executive, W. Ashfield, The Sun, Grenfell; B. M. Frith, The Recorder, Wakarusa; R. Zubac, The Citizen, Kerrobert; W. T. Morphy, The Sun, Viscount; Andrew King, The Enterprise, Rouleau; S. N. Wynn, The Enterprise, Yorkton.

Upon the invitation of the Regina City Council and the Regina Board of Trade, Regina was decided upon as the meeting place for 1929.

Manitoba Radio Station

Largest Broadcasting Station To Be Operated in Canada
The largest radio broadcasting station in Canada is now operated by the Manitoba Telephone System.

The new broadcasting set is fully modern in every respect and compares favorably with the best stations in United States. The present station now being operated by the telephone utility was installed a few years ago, but the rapid progress in radio industry has made it out of date.

The new set will be installed at Manitoba Agricultural College and broadcast by remote control from the Sherbrooke street telephone exchange in accordance with present practice.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy, Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

Hop Acreage in Canada

The total acreage in Canada of hops in bearing in 1927 was 1,037 acres, or practically double the 594 acres produced in 1926, which was quite the largest acreage up to that time. The average yield per acre was 1,375 pounds and the total yield 1,425,875 pounds, or 7,292 bales. The average price received per pound was 32 cents, making the total value of the 1927 hop crop \$456,280, as compared with \$367,246 in 1926.

The Oil of Power. It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

"Hey, Miss Watzourname!" shouted the boss. "What's the phone number of Brown & Company?"

"O," replied the new stenog, dabbling her nose, "approximately 2000 Something."

Headache? Relieve with Minard's Liniment.

Many of us are kept but of a lot of mischief by being out of funds.

ASPIRIN

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacturers. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

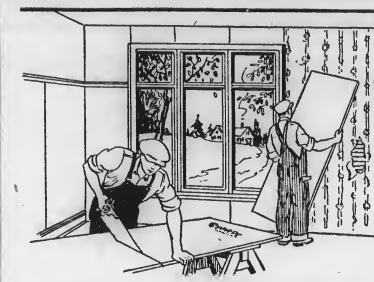

Shortage Of Butter

Canadian Production Not Keeping Up With Domestic Requirements
J. A. Caulder, President of the National Dairy Council of Canada, told the delegates to the annual meeting of the Dominion Mortgage and Investments Association, that Canada this year would be 15,000,000 or 20,000,000 pounds short of supplying her own butter requirements. The dairy industry has not kept pace with increased population, he said, and Canada had the highest per capita consumption of butter in the world—approximately 28 pounds a year.

COUGHS

are Nature's signals warning that resistance is broken and the body undermined.
Scott's Emulsion is a blessing to all who need strength. It helps keep the body vigorous and healthful. Try it!

Scott & Bowne, Toronto, Ont. 25-59

Nail GYPROC right over Old Walls

How many rooms in your home have walls that are cracked and faded? Make them "good as new" by nailing GYPROC right over the old, unsightly wallpaper. When you've decorated with Alabastine your home will be as attractive and comfortable as any home can be.

GYPROC Advantages for Farm Buildings

Use Gyproc for partitioning off extra rooms, renovating attics and basements, and making grain bins, stables and other farm buildings fire-safe and vermin-proof. You can put it up yourself—easily, quickly and at a substantial saving.

Gyproc Joint Filler applied at all the joints insures a perfectly smooth, flat surface that will take any decoration.

HARVESTER PLAN WAS A SUCCESS STATES AMERY

London, England. — Satisfaction that the great majority of British minister harvesters were employed under satisfactory conditions and that reports of generally bad treatment cannot be substantiated is expressed by Right Hon. L. C. M. S. Amery, secretary of state for the Dominions, in a letter to Right Hon. Arthur Henderson, chairman of the Labor party made public here.

Mr. Amery's letter was in reply to one from Mr. Henderson in which the former home secretary said that the attention of the national executive committee of the Labor party had been called to "various serious statements" regarding conditions under which the miners were employed and the treatment they received in Western Canada.

An officer was sent from England to Canada, and was still there, to deal with sickness and cases of genuine personal misfortune, Mr. Amery said. He mentioned that no harvester was adversely affected under the national insurance scheme.

"No doubt some cases of hardship have occurred—and indeed ability to face some degree of hardship is indispensable—but I am satisfied that no general complaint of bad treatment can be substantiated," Mr. Amery wrote.

"I am also satisfied that the great majority of harvesters got work under satisfactory conditions."

Plane Crashes In

Hudson Bay Area

Machine Forced To Land and One Man Reported Killed

Toronto, Ont.—A special dispatch to the Toronto Star from The Pas, Man., says that one member of an aerial exploration party is dead, and another badly injured as a result of a plane crash in a forced landing in the Hudson Bay area.

The Star's dispatch follows: "One member of the Northern Alberta Mineral Exploring prospecting party is dead and another prospector is badly injured and is in a critical condition according to word reaching The Pas."

"The men were in the Hudson's Bay area seeking minerals and are believed to be members of a party being transported by airplane to a new field, on what is known as the Northern Plane. The plane, forced to land, it is understood crashed on a reef."

"Word of the precarious position of the men on the plane was radioed to a Dominion government tug operating in the Hudson's Bay District. It at once rushed to the scene of the wreck and was able to rescue six of the men on the plane. The name of the pilot in charge has not yet been learned."

"As soon as word of the fatality reached here Captain Oakes was sent out by plane to render all help possible."

Canadian Scouts Will

Attend World Meeting

Two Complete Troops Going To England For Twenty-Fifth Anniversary

Ottawa, Ont.—At a conference of Boy Scout commissioners of the various provinces, it was decided that Canada would be represented next summer in the gathering of 30,000 Scouts brought from all over world for the great jamboree to be held near Birkenhead, England, to mark the twenty-fifth birthday of scouting. Plans were made for a minimum of two complete Scout troops, the final size of the contingent to depend upon the number of boys it was possible to draw from each province.

Floods Hamper Relief Work

West Palm Beach, Fla.—Rehabilitation camps in the hurricane devastated area about Lake Okechobee have been seriously hampered by flood waters. The lake and surrounding streams and rivers were out of their banks after heavy rains. Thousands of acres of farm land were under water.

Will Reveal Fact

London, Eng.—It is understood that the cabinet has decided to publish a white paper containing full details of the discussions leading to the Franco-British naval compromise proposals with relevant documents and the replies from the powers consulted as soon as certain outstanding formalities are completed.

N. W. U. 1755

Unemployment Insurance

Question To Come Up For Consideration When Ottawa House Meets
Ottawa, Ont.—Unemployment insurance, which was the subject of investigation by the industrial committee of the House of Commons last session, will be given further consideration when Parliament convenes again. This assurance was given by Hon. Peter Heenan, Minister of Labor, who stated that the majority of the provinces of the Dominion already had declared themselves upon the proposal.

In its report the industrial relations committee accepted and endorsed the principle of unemployment insurance, based on contributions levied from the state, the employer and the employee. The report further pointed out that the responsibility for such legislation is primarily rested with the provincial governments.

On the basis of the committee's findings the department of labor communicated with the various provinces to ascertain which of them would be prepared to consider adopting the proposal and to what extent they were willing to go at the present time. Mr. Heenan commented that these replies would be submitted to parliament at the next session. The minister refused to divulge the views of the provinces in the matter.

Winston Churchill Joins Union

Chancellor Of Exchequer Is Identified With Building Trade Workers

London, Eng.—Winston Churchill, chancellor of the exchequer, who is negotiating a repatriation as a bricklayer while handling a crowd in the building operations at his home in Kent last summer, has made himself one with his fellow-craftsmen by joining the Amalgamated Union of Building Trades Workers. The chancellor, who paid his entrance fee by cheque will receive his union card shortly.

Notifying the new recruit to trades union ranks that he will be pleased to enroll him as a member, James F. Lane, divisional secretary, said Mr. Churchill a copy of the rules mentioning the entrance fee of five shillings and a voluntary contribution of nine pence.

"This," Lane wrote, "entitles you in addition to trade protection to one point a week should you be called out on strike and to additional unemployment benefits should you at any time fall out of employment."

Under the regulations any one employing the services of a bricklayer in the future must pay him the minimum wage.

New Varieties Of Seed Wheat Ready

Demand For Garret and Reward Greater Than Supply

Ottawa.—Nearly 25,000 bushels of seed wheat of the Garret and Reward varieties will be provided by the Department of Agriculture this year, it is learned. The demand is stated by officials to be greater than the supply.

The new varieties were developed by L. H. Newman, Dominion cerealist at the experimental farm here. The grain ripens from seven to ten days earlier than other varieties.

Last year's sale of seed grain amounted to approximately 10,000 bushels. So satisfactory have the results been that this year's production at the experimental farm will not nearly meet the demand. It is sold to the farmer at \$3 per bushel.

Tuberculosis In Cattle

Disease Being Eradicated By Means Of Restricted Areas

Ottawa, Ont.—Tuberculosis in Canadian cattle is rapidly being eradicated through the operation of the restricted area plan. Dr. George Hilton, veterinary director-general of the department of agriculture, declares:

"Where in some areas as high as 7.9 per cent of cows had been infected on the first tests, re-tests had shown a general falling off to approximately one-half or one per cent."

"There is a persistent and increasing demand upon the department for restricted areas," Dr. Hilton said.

"Farmers have found that by replacing infected animals with high class stock they receive greater financial returns with less work."

—Antarctic Broadcast A Success

Montreal.—A wireless received by George A. Wendt, Canadian Westinghouse Company, states that the first attempt to broadcast special programs for members of the Byrd Antarctic expedition, now on the way to New Zealand, was completely successful.

Chamberlain Will

Travel Across Canada

Reaches Victoria October 29, and Sails From Quebec November 15

Ottawa.—Sir Austen Chamberlain's Canadian schedule has been given out here. He will arrive at Victoria on the afternoon of Monday, Oct. 29, remaining there until Wednesday, Oct. 31, when he leaves for Vancouver, where he spends Wednesday night. Sir Austen will leave Vancouver for Banff on Thursday morning. He will leave Banff on Sunday, Nov. 4, and arrive in Toronto early Wednesday morning, Nov. 7.

The next evening he will leave for Ottawa, arriving in the capital on the morning of Friday, Nov. 9. His stay in Ottawa will continue until Tuesday, Nov. 13, when he leaves to spend one day in Montreal. From Montreal, Sir Austen goes to Quebec, arriving in that city on the evening of Nov. 14. He will call from Quebec the next day.

FINAL PAYMENT OF WHEAT POOL FOR 1927 CROP

Winnipeg.—Cheques for the final payment of 2½ cents per bushel on the 1927 wheat crop are now in the mail for Wheat Pool members in Manitoba, Saskatchewan and Alberta.

Of the total amount distributed, Manitoba's share is \$251,875.33. The Saskatchewan Pool received \$2,870,820, and Alberta, \$1,600,143.75.

"The final payment this year is a final payment on all grades of wheat," it was stated by E. B. Ramsey, general manager of the Central Selling agency. "As all marketing costs and all deductions for commercial and elevator reserves were made from the last interim payment, the Pool's final price for the past year on No. 1 Northern, Fort William, was \$142.1 per bushel, as compared with \$142 paid last year, \$145 in 1926, \$166 in 1925, and \$101 paid by the Alberta Pool in 1924."

Regina.—President A. J. McPhail commented on the fact that the payment this year is somewhat earlier than the final payment from the 1926 crop, which was made on October 19 last year.

"A detailed report of the operations of the Pools for the crop year 1927-28 is, of course, not yet available, and will not be available until the annual meeting of delegates which takes place on November 20, but it is sufficient to say at this time that the Pool management are satisfied with the showing made during the past year. They are confident that many Pool members did not expect the final price to be so generally satisfactory, and I can only repeat what I have already stated on previous occasions, that the Pool organization, as a wheat marketing agency, can only be effective to the extent that it is both efficient in management and in control of the largest possible volume of the total marketable wheat from Western Canada. In this, I think, generally admitted that the Pool organization is to be commended for the progress made in date in building up so rapidly such a huge organization, and we hope that our efforts will be assisted in the future by the action of many million bushels more of Saskatchewan wheat, now marketed outside of the Pools."

HAS SETTLEMENT PLAN

Lord Melchett, formerly Sir Alfred Mond, who is in Canada. He proposes land grants to settlers by the Dominion and the financing of the undertaking by Great Britain as a solution to the British unemployment problem.

Lord Melchett, formerly Sir Alfred Mond, who is in Canada. He proposes land grants to settlers by the Dominion and the financing of the undertaking by Great Britain as a solution to the British unemployment problem.

Many Killed When

Building Collapses

Faulty Material and Hasty Construction. The Blamed For Accident

Prague.—The catastrophic collapse of a newly-constructed seven-story building here may have taken a toll of 64 lives or more, it is feared.

Most of the victims were workmen putting the finishing touches on the building. Faulty materials and too hasty construction are blamed for the collapse.

The architect in charge of the construction of the building committed suicide when informed of its collapse.

A woman pushing a baby-carriage was buried beneath the avalanche of brick and masonry when her child suffered the same fate, as did two coachmen and the four horses pulling their vehicles. About a hundred workmen were in the building when it collapsed.

Order Will Be Repealed

Canadian Residents Working In U.S. Are Not Immigrants According To Ruling

Washington, D.C.—Order eighty-six of the United States immigration department may be formally repealed within the next week or so. Proclamation No. 1971, which was promulgated on April 1, 1927, the order caused international turmoil until the Supreme Court of the United States technically nullified it by refusing to review the judgment of a New York Circuit court of appeals, setting aside its provision that Canadian residents working on the U.S. side of the border were really immigrants, and must conform to all requirements of the U.S. immigration laws.

China Inaugurates President

Shanghai, China.—General Chiang Kai Shek has been inaugurated president of China. For the first time in 17 years of her history as a republic, China thus attained a unified central government. This was a national holiday. Chiang was installed at Nanjing, the Nationalist capital, with impressive ceremony, amid general rejoicing. He was made chairman of the Nationalist government council, with the title of president.

Sails For Antarctic

Commander Byrd Commences Expedition To South Polar Regions

Los Angeles, Cal.—With thousands of his fellow countrymen at the harbor to wish him well, Commander Byrd, U.S.N., turned his face this afternoon toward his newest adventure in the ice-crusted regions of the South Pole.

The expedition, which embraces 52 members, will cost approximately \$1,500,000. The money was raised by contributions from all parts of the United States. The primary purpose of the trip is to make accurate maps and procure important meteorological and other data of the South Polar regions.

Conditions Are Improving

Department Of Labor Reports Fewer People Unemployed

Ottawa, Ont.—Material improvement in employment conditions throughout Canada during the current year is revealed in figures dealing with employment placements released by the department of labor. Up to the end of August, employment was found for 285,714 applicants at the various public employment offices in the Dominion. In the first eight months of last year work was found for 238,570 applicants.

A WELCOME FOR SETTLERS FROM THE BRITISH ISLES

London, Eng.—"No bigger triumph was ever offered in respect to a nation and a country than to say that Canada does not wish to have immigrants from the British Isles," Premier Mackenzie King of Canada declared emphatically in the course of a lengthy speech on Canada's immigration question and diplomatic representation abroad at the annual banquet of the Canada club here.

"Not only do we wish to have but we are prepared to advance money for their passage and indeed in some cases pay the entire passage for those whose labor we specially need," the Canadian Premier stressed after outlining the prosperity of Canada at present and the exceptional opportunities the Dominion held for migrants.

Hon. Charles Dunning, minister of railways for Canada, followed Premier King with a statement that he believed many of the British miners who went to Canada this fall would remain in the west.

This comment was merely, the speaker stated, the first of a series followed in Britain for 20 years, he remarked. Eastern Canadians had been going west on harvest excursions for two decades and many had settled permanently in western Canada.

The speaker strongly deprecated the idea that any considerable proportion of people without experience in Western Canada could be expected to start immediately to become successful farmers on their own account. Assisted settlement schemes could not in this way be wisely extended, he added.

A certain type of propaganda appearing from Canada in the British press, conveying the impression that Britons are not wanted in Canada," was strongly condemned by the minister.

LEGATIONS AS A SYMBOL OF OUR GOODWILL

London.—Premier Mackenzie King of Canada, addressing the Canada Club here, made the following statement, explanatory of the motives which prompted the establishment of Canadian legations at Washington and Paris:

"It is a desire to gain the advantage in international negotiation of diplomatic standing and status for whoever today may be representing Canadian interests in the United States and France, and for whoever may succeed to that high responsibility in the years to come."

"Next it is to provide means of more effective consultation and co-operation between the British and Canadian government on matters in the United States and in France which are to us of common interest and concern."

"But over and above all else is the hope we devoutly cherish that a Canadian legation in the United States and in France may serve in the relationship a reminder of the near relationship of our country to these great countries and to this old land."

"In the United States our legation, we trust will stand as a symbol of Anglo-Saxon friendship and goodwill based upon kindred ties of blood and tongue and tradition between the British and American peoples. And our legation in France will stand as a symbol of that unity of French and British minds and hearts which has helped to make Canada what she is, and a never-ending friendship between the two great peoples."

"Alike in the world of the new, it is permanent friendship and goodwill which above all else Canada seeks for herself in relation to the countries, and between these countries and the United States, of the British nations to which she is so proud to belong. We are not without hope that our voice at Washington and Paris may be helpful towards that great end."

Farmhand To Stardom

Gordon McLeod, Now Touring West, Once Worked On Saskatchewan Farm

Winnipeg, Man.—A former Saskatchewan farm hand is now winning the west under circumstances which can best be described as offering several varieties of vivid contrast. Years ago, as a lad, he was one of the earliest to leave the Indian Head Experimental Farm. He also, during that portion of his career, worked for a time at the Imperial Hotel there. At this moment, he is a stage celebrity.

The co-harvester and student of the evening chores is Gordon McLeod, now heading his own London company on a transcontinental theatrical tour after being placed on the first last year when he took Sir John Martin-Harvey's place on an hour's notice. Sir John was stricken ill in Toronto, and young McLeod filled the breach so sensationally that a number of big financiers came forward and offered him the means to step into stardom.

Between the date of his earlier exertions at Indian Head and his present position as a theatrical star, he has played in China, Japan, Burma, from Cairo to Singapore, and from South Africa to London. During the war, he served under General Smuts in the campaign against German East Africa and later, as a junior lieutenant in France.

He has previously been starred in London, but this present year makes the first occasion on which he has scaled the theatrical heights for an international tour.

Deaths Of Prominent Grain Man

Edmonton, Alta.—Hartley Mansell Pearson, general superintendent of elevators for the Alberta Wheat Pool, who was taken ill at Chateau several days ago, passed away in an Edmonton hospital. Mr. Pearson was exceedingly well known in the grain trade, and previous to joining the pool some two years ago, was with the John R. McFarlane Grain Company of Calgary for 20 years.

Robbery Motive Suspected

Saskatoon.—Belief that Mike Harrison, whose body was found on blood-soaked newspapers beside the C.N.R. tracks near Saskatoon, was the victim of foul play, was strengthened when it was discovered he had received \$100 pay from a farmer a few days before his death. There was only 15 cents in his pocket when he was found dead, his skull badly smashed, and wounds on his back.

Sunday, Oct. 21—Holy Communion 11.15 a.m. Sunday school at 2.30 p.m. The harvest festival service will be held on Sunday, Oct. 28, at 7 p.m. Harvest festival at St. Luke's, Blairmore, Oct. 21, at 7 p.m.

Owing to another organization having their bazaar on Nov. 24, the Junior W. A. will hold theirs on Nov. 18. The Senior W. A. meets Thursday at 7.30 in the parish hall, and the Junior W. A. Friday afternoon at 3.30. Choir practice Friday evening at 7.

The harvest home supper will be held in the parish hall on Mon., Oct. 29, from 6 to 8 p.m.

World's Longest Grain Train is Hauled by C.P.R.

Comprised 135 Cars Loaded With
Weyburn Area Wheat—Train
Over a Mile Long

Employees of the Canadian Pacific Railway, established a new world record Sunday morning, September 30, when they operated over the company's line between Stoughton and Arcola, Kistley sub division, the longest and heaviest trainload of grain that has ever been hauled over any railway in the world.

The train comprised 135 cars loaded with Saskatchewan wheat, the engine the ordinary standard freight train engine, water tank and caboose. The official weight of the train was 8725 tons. The total amount of wheat carried was 202,500 bushels, or the produce of 10,000 acres of prairie land at an average yield of 20 bushels to the acre.

When the engine reached the switch at Arcola the train waggled its tail beyond the mile board, for the overall length of the train was more than a mile. It is the first loaded grain train more than a mile in length to have been operated anywhere and in addition to being the world's record grain train it is probably the record freight train for any class of merchandise.

This feat in Western Canada rail roading brought to a fitting close the grain hauling movement for the month of September, which has seen all grain handling in Western Canada well shattered.
